<sup>1</sup> Including debt-financing instruments issued by non-financial institutions, asset-backed notes, enterprise bonds, corporate bonds, and exchange-traded asset-backed securities.

while those with each trade above RMB90 million made up 43.0 percent. The average value per trade was RMB42.3867 million. The turnover of cash bond trading in the stock exchange bond market was RMB4.1 trillion, averaging RMB178.28 billion daily. A total of 75,000 transactions were done in the commercial bank OTC bond market, with the total turnover of RMB46.01 billion.

### **3. Bond Market Opening-up**

As of end-July, overseas institutions held RMB4.50 trillion, or 2.7 percent of the outstanding bonds in custody in China's bond market. Specifically, their holdings in the interbank bond market amounted to RMB4.46 trillion. By bond type, overseas institutions held RMB2.24 trillion of treasury bonds, or 50.2 percent of their bond holdings in the interbank bond market, RMB1.09 trillion of CDs, or 24.4 percent of their bond holdings in the interbank bond market, and RMB0.96 trillion of policy bank bonds, or 21.5 percent of their bond holdings in the interbank bond market.

### **4. Money Market**

In July, interbank money market transactions decreased by 34.3 percent year on year (a month-on-month increase of 25.7 percent) to RMB9.5 trillion. Bond repo transactions declined by 11.8 percent (a month-on-month increase of 25.6 percent) to RMB147.9 trillion. Repo transactions of exchange-traded standardized bonds went up by 20.1 percent year on year (a month-on-month increase of 23.9 percent) to RMB47.4 trillion.

In July, the monthly weighted average interest rate on interbank lending stood at 1.81 percent, down by 7 bps from a month earlier, while the monthly weighted average interest rate on pledged repos was 1.82 percent, down by 7 bps from a month earlier.

## **5. Bill Market**

In July, commercial drafts that were accepted totaled RMB3.2 trillion while those discounted amounted to RMB2.6 trillion. As of end-July, the outstanding amount of accepted commercial drafts stood at RMB18.1 trillion, and those discounted registered RMB13.5 trillion.

In July, 102,000 micro, small, and medium-sized enterprises (MSMEs) issued bills, accounting for 93.1 percent of all issuing enterprises. Bills issued by MSMEs reached RMB2.3 trillion, representing 73.3 percent of the total issuance. Of all the enterprises that discounted bills, 110,000 (96.6 percent) were MSMEs. The bills they discounted registered RMB2.0 trillion, accounting for 79.8 percent of the total amount of discounted bills.

## **6. Stock Market**

At end-July, the Shanghai Composite Index closed at 2938.8 points, decreasing by 28.7 points (1.0 percent) from a month earlier. The Shenzhen Component Index closed at 8754.1 points, decreasing by 94.6 points (1.1 percent) from a month earlier. In July, the average daily turnover on the Shanghai Stock Exchange decreased by 8.0 percent month on month to RMB295.56 billion and that on the Shenzhen Stock

Exchange decreased by 10.7 percent month on month to RMB356.99 billion.

## **7. Structure of Bond Holders in the Interbank Bond Market**

As of end-July, there were 4,008 incorporated institutions in the interbank market, all of which were financial institutions. Of the incorporated institutions, 2,106 were holders of debt-financing instruments issued by non-financial institutions<sup>2</sup> (“non-financial debt financing instruments” for short). By the size of bond holdings, the top 50 investors, mainly including public funds (asset management), large state-owned commercial banks (proprietary), and trust companies (asset management), held 50.7 percent of the total, and the top 200 investors held 83.6 percent. The biggest, smallest, average, and median numbers of holders for a non-financial debt financing instrument were 85, 1, 13 and 13, respectively, while 87 percent of non-financial debt financing instruments were held by fewer than 20 investors.

In July, based on the trading volume of non-financial debt-financing instruments by incorporated institutions, the top 50 investors conducted 60.2 percent of such transactions, mainly including securities companies (proprietary), joint stock commercial banks (proprietary) and fund companies (asset management). Transactions by the top 200 investors accounted for 90.2 percent.
